SEMINAR: Addressing Wellbeing in the Long Term: A Review of Intergenerational Equity, Discount Rates in Climate Change Analysis

PRESENTER: Dr Mark Harrison

Dr Harrison is part of Professor Ergas’ infrastructure economics team at SMART and a Lecturer at the ANU College of Business and Economics.

WHERE: 6.105
WHEN: 10:30am, 10 December 2012
RSVP: smart-facility@uow.edu.au

TOPIC
It would improve policy evaluation to use traditional cost benefit analysis techniques, based on the efficiency criterion, transparency and sensitivity testing. That approach separates empirical and ethical issues, exposes value judgements and makes discounting about opportunity cost.
