Agglomeration economies and other spatial impacts of infrastructure

CONNECT: SMART SEMINAR SERIES

Presented by Prof. Cameron Gordon

Associate Professor of Economics at the University of Canberra’s Faculty of Business and Government and Chair of the ACT/Southern NSW Section of the Chartered Institute of Transport and Logistics Australia (CILTA).

Topic Transport infrastructure can have significant spatial effects such as expansion in effective access to markets for goods and services and an ability to achieve agglomeration and other spatial economies across those markets.

Date August 3   Location 6.106   Time 9:30am
